25X1A9a

The Economic Defense Intelligence Committee on 10 November 1955 agreed to establish a Working Group on Propellants and Fuel Additives to replace the Working Group on Magnesium. Agency representatives who were designated to serve on the Working Group on Magnesium will constitute the new Working Group, unless the Secretariat is notified of changes by participating agencies. Chairmanship will remain with CIA. The

The purpose of the Working Group will be to explore intelligence data on magnesium, colloxylin, perchloric acid and perchlorates of sodium, potassium and ammonia for preparation of a report in response to EDIC Intelligence Request Nos. 13, 17 and 18. Data on other propellants or fuel additives may be included in the report should the Working Group decide that the scope of the survey should be broadened.

The Working Group is directed to report its findings to EDIC at the conclusion of its survey.

25X1A9a 25X1A9a

Chairman [redacted] has been requested to call a meeting of the new Group at an early date.
